WORK EXPERIENCE

2018 to Present: **Senior Manager, Technical Program Mgmt**
AMAZON - **Product Quality (PQ)** Seattle, WA
· Reduced the global rate of product quality defects from 36K ppm to 32K ppm; $239M impact /yr (SVP & Board metric)
· Reduced the impact of PQ issues from $42.0 /complaint to $40.2 (4.7% impact) by building a communication product facilitating 2.5 million conversations /qtr in 39 languages
· Increased the quality of Amazon review corpus and star rating by 3.1% from building PQ review moderation tech & policy platform for 330 million submitted reviews /qtr
· Owned AI governance & strategy for PQ Perception

2017 to 2018: **Data Scientist**
US PATENT AND TRADEMARK OFFICE Alexandria, VA
· Increased the accuracy of first patent application decision vs final decision from 56.8% to 61.2% by creating ML models to enable image search and predict challenging cases
· Led first US Public Sector distributed big data deployment

2011 to 2013: **Special Project: Full Time Onsite Technical PM**
AIRBUS Toulouse, France
Managed 10 RFID process improvement programs such as:
· A350 tool management to eliminate 6.5 hours /shift (1.2%)
· A380 final assembly logistics to reduce delivery time by 65%

2009 to 2016: **Senior Technical Program Manager**
QUAKE GLOBAL (Start-Up) Washington DC
Built cross-functional programs for 50 clients including:
· Reduced the error rate of Mayo Clinic specimen tests from 10% to 0.2% by deploying Radio Frequency ID (RFID) system
· Increased the quality of Vail skier experience by building the hardware back end of the EpicMix App (replaced by MyEpic)
· Eurocopter, US Navy, Nissan, Caterpillar, John Deere & others

EDUCATION

2015 to 2017: **Master of Business Administration**
THE JOHNS HOPKINS UNIVERSITY

2015 to 2017: **Master of Design Leadership**
MARYLAND INSTITUTE COLLEGE OF ART

2005 to 2009: **Bachelor of Science in Mechanical Engineering**
THE UNIVERSITY OF VIRGINIA

SKILLS

LEADERSHIP

Built three, five-person teams; Conducted 75+ interviews; Expired Security Clearance; and Led talent reviews, hackathons, and operations planning

BUSINESS & DESIGN

Strategic Planning (Mission, Vision, and Tenet Definition; Metric, KPI, & Goal Setting; Budgeting, and Road-Mapping); **Product & Program Management** (User Research, Design Thinking, SLAs, Experimentation, Critical Path and Release Coordination, Supply Chain, PR/FAQs, UX, and MVPs); and **Risk Management** (Policy Development, Incident Management, and Negotiation)

SCIENCE & ENGINEERING

Machine Learning (CV, NLP, LLMs, Evals, LLM-As-A-Judge, and Agentic AI MCP Servers & Skills); **Programming & Software** (Architecture, System Design, Agile, Scrum, AI Tooling, AWS, Cloud, Distributed Systems, Python, Linux, Git, HTML, & APIs); **Data Pipelines & Analyses** (SQL, NoSQL, Hadoop, Spark, Streaming, and C-Suite Reporting); and **RF Engineering** (CompTIA Cert)

INTERESTS

Advanced French (B2), Music Production, Soccer, Tennis, Mountaineering, Technical Writing, Investing, Blockchain
